

CLIMATE CHANGE - DO WE REALLY KNOW ALL OF THE FACTS?

Michael Doherty, Partner of Lynch Meyer Lawyers, has been selected to deliver his version of former US Vice President Al Gore's now famous slide show on climate change. The presentation is a version of the slide show known to many as the basis of the Oscar award winning movie "An Inconvenient Truth".

Michael is one of 162 people who completed a rigorous training session conducted by Mr Gore in Melbourne in September 2007.

"Michael is an outstanding example of the millions of Australians who have been energised by the call to action on the climate crisis," said Mr Gore. "We are so pleased that he has made a serious commitment to this challenge becoming part of this unprecedented grassroots effort."

"Michael will spend a year making presentations in and around Adelaide discussing how individuals and businesses and other organisations can be a major part of the solution to the growing crisis of global warming," he continued.

ACF executive director Don Henry added:

"Climate change is the biggest crisis we face. Australians want to find out what they can do and what we as a nation should be doing. This would will inform and inspire many more people to take action."

Michael is keen to present the climate change message to businesses, industry and professional bodies, and community groups.

"We were taught how to present Mr Gore's slide show to our local communities. The slide show is based on the movie, "An Inconvenient Truth" but has been updated and also adapted to include a lot of local as well as global material.

The slides explain the science and solutions of climate change in a very clear, graphic and compelling fashion. The presentation aims to promote a better understanding of global warming – its causes, effects and the things that we can do about it.

The presentation is designed to take about 1 hour. I am happy to present to any size group, small or large. It would help if you have access to a data projector.

I should stress that the presentations are undertaken on a strictly voluntary basis. They cannot, for example, be used for fundraising purposes.

If you would like a presentation, I would be pleased to hear from you!"
